His Second Visit to Bangor.

V, the earnest request of his many friends and former patients,

Dr. Nicholls, the Celebrated English Specialist.

BANCOR HOUSE, Bangor, Maine,

for a limited time. All who failed to obtain a heating on acquint of the crowd during his last visit, will now have an opportunity to consult him. Due notice of this departure will be given through the papers

low the National Guard to be used to exist the strikers.

If the Great Problem of Life. How to Preserve it ought to be the Study of Mankind.

In presenting this notice to the public 1 respectfully ask those into whose hands it many fall to give in their rate in some features and extended preside in Chronic Basanes for inany years. I was confident that I am able to perform all their confident that I am able to perform all their confident that I am able to perform all their confident that I am able to perform all their confident that I am able to perform all their confident that I am able to perform all their confidence in the performance of the strikers.

In the Great Problem of Life. How to Preserve it ought to be the Study of Mankind.

Vestrana Leave Baltimore After Piesean Cough Baltam would dewrite a performance of the strikers.

Baltimore, April 21. The Want of the Study of Mankind.

Dyspepsia's vicilities are numbared by the strikers are numbared by the strikers.

Baltimore, April 21. The Want of the Study of Mankind.

AGE THE OATH OF OFFICE.

It is Chief Justice Matteaun.

PROVIDENCY, R. I. April 21. Hon.
Charles Matteaun to-day took the onth of office as Chief Justice of the Supreme of the cost contact.

Now, reader, why is this? We will tell you Catarrh from a liter formed in the posterior nerves just above the urtill, the passages between the nose and throat; the ulear continues to east and discharge a poisseaus flow of pus, roughing down the throat is the stomed and lungs. This, my friend, is what causes the constant clearing of the throat. Can you wender why you do not be stomed beath with all this polesses. rriend, is what causes the constant clearing of the threat. Can you wonder why yest do not have good heat(h with all this poisenous matter constantly running into your stemach? The remedy is applied directly to the sloer, cleaness and heats in a few applications. The treatment is very simple and harmices.

Discusses of Winaco. Comple Weathness. Debitiff, and all Discusses of the Eye and Enc.

The Republican National League is now

an excellent selection. come is slowly, but the figures show a re-

markable unanimity of sentiment among the people in favor of the new direct line, there being but very little opposition to the project.

age has injured his chances for another iomination. Free trade and free silver is the platform upon which benator Vance thinks the next Democratic candidate will have to stand.

Some of the Democratic statesmen pretended to be dead set ugainst the refunding of "the direct tax" to the States. it is noticeable that Governor Hill, of New York, was the first Governor that knocked at the door of the United States Treasury and demanded his money.

Here are more fruits of that "odious Mekinley biil." A woolen mill to employ from 500 to 1,000 operatives is to be creeted at Woodsocket, R. I., by English and Belgian manufacturers. Within a month four new knitting mills have been started at cohoes, and last week six new factories were reported.

election in New York (50,000 registered votors failed to go to the polls. International thinks there is reason to believe that a good proportion of these voters were Republican and admits that it is possible that the new ballot law had an effect on some, but does not think it entirely reponsible for the big total. It is noticeable, however, that the Tidence does not assign any other caus for this failure to get to the polls.

ty Con missioners have fixed on Monday, D. M. HOWARD & SON, May 1s, as the day for holding town meetings to vote on the question of aiding the Maine Shore Line. The Machine Union .uy. The voters and taxpayers will have opportunity to digest the proposition. Having time let the question be considerately discussed. In the first place anything worth having costs something and this something must be paid by somebody. Is not the road worth having? Will it not directly and indirectly benealt farmers, mechanics, laborers, traders, lumbermen, lotel men and livery stable kerpers? Will it not increase travel? Build up summer resorts. Give more direct and quicker methods of shipping farm produce, himber, granite, etc. - True by voting Yes the people assume a tax; but will not the tay return a fair equivalent?

day about the statement made by free trade Democrats that the restriction of the duty on sugar and the consequent cheap ening of that article to consumers was conclusive proof that removal of duties benefits the consumers, and, replied: "It must not be forgotten that a sugar tariff is pecullarly a revenue facilil which is always paid by the consumer, as the Demoeratic party has always advocated, and Mr. Cleveland administration insisted in the revision of the tarift by the Fiftieth congress that the tax upon sugar should be continued because it was a revenue tariil and not a protective tariff. The Mills bill, which was the embodiment of Demoeratic purposes, and which was approved by the National Convention of 1883, made sugar dutiable at 2 and 21, cents a pound. The Republicans made sugar free, because, after a hundred years' trial, it had been demonstrated that we rould produce but eight per cent of what was consumed. and that the foreign producer fixed the price to the American consumer, which was the foreign price with the tariff added, all of which was paid by the consumer. The Republican Congress recognized the duce at home the duties should be removed

Foreign Trade Larger Than Ever.

Your tariff suppresses imports, say the free traders. The truth is not in them, for imports of foreign goods are not only greater a value absolutely, but in propor-tion to population also, than they ever have been under any other tariff. The heaviest foreign trade ever known, prior to the establishment of protective duties in 1sel, was during the fiscal year 1860. value, or \$11.27 for every inhabitant according to the census of that year. But in 1890 another census showed the nonulation to be 62,623,250, and the imports were in value \$789,310,409, or \$12.60 for every mhabhaat. But since the new Mckinley tariff was adopted the imports have been larger than they were during the correponding months of last years. The following gives imports of merchandise at all ports for the months October-February. inclusive, and at New York alone for the

62,300,724 65,926,777 48,282,379 February, March, N. Y.,

In these six months, the new duties hav-

ing been in force all the time excepting six days in October, the imports under them have been \$18,066,443, or nearly 5 per cent. greater than they were in the same mouths of the previous fiscal year, although imports were then the largest ever known. That is, the imports are at present at the rate of about \$13 for every inhabitant under the McKinley bill, against \$11.50 in the latest and largest year under any revenue teriff.

oods so darken the nicabout the new tariff that many may magine that it has failed of its purpose if it has not apcludet imports of foreign goods. Whoever wants the truth will learn that the McKinley tariff placed a large number of articles on the free list which were previously dutiable, and reduced the duties on a greater number of articles man it advan

cles free of duty not only equal but largely increased imports of these articles. Thus the free imports during the six months, including as before the imports at New York only for March, were \$20,593,-410 greater than for the same months last year, while the imports of dutlable articles were \$8,527,967 less, as follows:

Free imports, \$152,470,502 \$125,876,092 Dutiable imports, 221,591,351 230,119,318

at all ports and at New York in March last year, a decrease of \$7,217,847, or \$7 anced by the iccrease in imports of other ing American industry the best and most thorough protection it ever had, and at the in session at Cincinnati. There is a strong same time is giving the people the freest and largest trade they have ever enjoyed under say tariff.

His Complaint Arose
from the allusion of Mr. Forsker to Mr.
Blaine as having "Given us a magnificent
administration." The manner in which
the appliquee followed that declaration
showed a feeling as if there were an intentional ignoring of President Harrison.
The findiana delegate was quieted for a
time and the convention administed. Mr.
t ole subsequently called a meeting of the
indiana delegation and proposed that some
formal notice of the matter be taken.

After consideration it was decided to refer the matter to the committee on resolutions, masmuch as it was thought likely
that Mr. Forsker did not intend to convey
a meaning that Mr. Blaine was the ruling
spirit of the administration but he meant
to compliment the administration of his
own office of Secretary of State.

It took a policeman and several citizens to convince the men that there was was restrained from running away by the nothing wrong.

One of the rapidly growing towns in Going fato Liquidation.

Bondfaux, April M. It is announced that the Steam Navigation Company, whose vessels are plying between this port and New York, is going into liquidation. The reason given for the state of affairs is that the shareholders of the company retains submit any longer to the loss of money occasioned by the continued reduction of the traffic, which they say resulted from the extractive settled and from the French government's virtue prohibition of American products and increased duties placed on American grain.

It is said the braviest narrow guage locomotive ever built in this country is that this part of the State is Montague. Three syens of the Eastern Law District part of the Eastern Law District part of the State is Montague. Three says the part of the State is Montague. Three this part of the State is Montague. Three the Law of the Eastern Law District part of the State is Montague. Three the lower use under the forest, until the present mill company came seeking a site for a pulp mill. At the fine the lower part of the district was unknown, not a tree had been taken from its home in the forest, until the present mill company came seeking a site for a pulp mill. At the fine the lower part of the district was known as West Endeld, and it had six scholars. There are now one hundred and seventy one, according to the census taken by the district agent, A. S. Bates. The town has six stores, one church, two barber shops, three large boarding houses, and a large number of dwelling houses, and the work of building is still in prothis part of the State is Montague. Three

A snake that Fais Eggs.
The finances snake I know anything about is one found in Africa, which lives upon eggs, said Osteologist Lines. "It has a curious projection downward from its backbone just behind the head which is like a rooth, the extremity being actually upped with ename! This toothlike appendage has a most important function with relation to the creature's method of getting albeing and it would be difficult to find a more astonishing illustration in nature of the adaptation of structure to necessity.

When the snake swallows an egg first anter is passed down through the guilet until it encounters the sharp tooth i have spoken of, which breaks the shell. Thus not only is the food rendered easy for immediate digestion, but no portion of the fluid contents is lost, as would be the ease

If the snake were obliged to bite into the egg with its mouth tangs. It seems surprising how many snakes are able to awallow animals bigger than

themselves until star considered how par ticularly well nature has adapted to the

purpose the structure of their jaws. The lower jawbone instead of being in a single piece, is merely connected in front by an elastic ligament so that the two halves are

capable of great extension. Again, the halves of the lower pawbone are attached to the skull very far back, so that the ani

FROM FTHAN ALLEN TO AXTELL, NEI SON AND STAMBOUL The really remarkable performances of the stallions Nelson and Stamboul last POINTS REGARDING THE WATER FOWL III CENTRAL PARK teason, and the relicerated assurances from the owners of each that the horses will do Though Heautiful Creatures, Swans Have better this season than match their performances of last year, have created a un-versal interest in the trotting world on the Some Queer and Interesting Peculiaritles-Mates Are Always Faithful to Pach Other—How They live

Toward to dock one aftermion a scene of sevene domestic bias was to be observed from the high bridge which leads out of Central park at Eighth avenue and Seven to seventh street. I here was a struggling and faint hearted sombine. In the hollow is at below the bridge is a pond, the winter quarters of the swams, the anow geese and the white ducks. Some of the swams float ed inlipairs on the water, now and then diving their longinesis so far beneath the surface that their tails pointed to the zenith and their webbed feet floated like the leaves of water likes. When they were not diving they drifted beautifully about looking the bits of summer cloud dropped to the point from the sky. They were evident ly well contented with their lot and each pair seemed as loving as a couple on their honeymoon four. The geese and ducks seemed amiable enough also. Others of the swams stepped about upon the ice and gave no sign of being troubled with cold feet. They all made strange gutturn sounds, except one swan. He stood those observing first the swans on land and then those in the water After each inspection there was a dreamed through to his fellings in a long strumpet in unskillful hands. This lonely swam was the American transpeter the only representation the fellings in a long strumpet in unskillful hands. This lonely swam was the American transpeter the only representation in Foreigns in a long tatting note. prantitive of what this season may bring Pach Other-How They live forth so far as the speed of an entire horse

goes. Less than 30 years ago a stallion which could trot in 2 30 was a phenomenor. Noday if be cannot trot in '30 he is a failure and only those who have made marks of 20 or under see deened worthy of more than passing notice,

The Kings of the Trotters.

The history of the reduction of the stalflon record in the past 30 years is interesting One of the flist stallions to obtain great prominence on the trotting track was the famous Ethan Allen, which, on Oct. 28, 1858, trotted against George M. Pattlen, for a purse of \$2,000 at the Union Course on Long Island. Alten distanced bis competitor in 2-28. Two years

later, on the same track, he defeated Prin-ces in 2 2012 and 2 2512, distancing the mare in the second heat When it is considered that the fastest

when it is considered that the fastest two ting time in 59 was Flora Temple's 2,1934, the record of Ethan Allen becomes more remarkable. He defeated all the best horses of his time, but in the stud he was not a success, and his role of honor in the 2 % list was a small one.

Contemporary with Allen was George M. Patchen. His land a signast Pilot, trotted at the 1 nion churse on May 9, 1830, is historical Pilot won the first and second heats in 2 31 and 2 2034, Patchen winning the next three in 3234, 39 and 40. The same year he defeated Brown Dick and Miller's Damsel in first, second and fifth heats in 2044, 2614, and 29.

On May 10, 1850, he met his great antagonist, Ethan Allen, and defeated him in straight heats in 25, 21 and 29. June 12 of the same year he met the great Flora Temple, and defeated her in a race of two-folleheats in 4 531, and 4 572.

His best time, 2 231, was made on Aug. 2 1860. He did good work in the stud He was the sire of the famous Lucy, 2 1944, and three 2 80 performers. Twelve of his soos I we produced 40 trotters in 2 30 or better.

The next great stallions to appear upon the part was one which proved to be not BEACHELL CFATCHES
Presently one of the ducks gave a shull creak that was taken up on all sides. Those swans and geese that were on land took to the water in a hasty and undignified way and the nail began a grand water to ir of the pond sading slowly or rapidly as the leiding duck slackened or quickened his movements.

as the leading dicks statemed or quiescus.

After a white an old man using slowly dive the path toward the pond and finally leaned against a little bridge overlooking it. He carried a ribid, thorn stick the wore upold upon old to part of two-mile wore upold to has taken eare of the swans understand a lime who has taken eare of the swans understand a lime who has taken eare of the swans understand a lime of them has ever shown the least sign of iffection for him but is very lond of them and has come to know and a lime them theroughly.

The next great stallion to appear upon the large them theroughly a monarch of the track, but

THE AREATS STRE OF ROTTERS

THE GREATEST SIRE OF EROTTERS

that the world had ever seen. Phis was two are Wikes. How fast he could have trotted will no set be known. At that one the rate upon the trotting turf was to go as show a possible compatible with winning. Breeding was cot thought at such great unjortance there is now, and to export the lighest speed of a loose weak disaye destroyed has opportunates to making money. For day, in most case a station is sent for a fast record on the first occasion he is absolutely in, and a senson at trunglish not a missible record was ted in the succeeds to attach may a fast much to his name.

That owners thought differently in the days of George Wikes, and the mottows. "Win if you can, but reduce your record as inthe as possible." In consequence Wikes left the turf with a record of 2.23, but it has been confidently, stated by conservative men who knew the great simulal that he and have shown. 12 or the your has licet trace on October 26.

least sign of therman for him and a lance them thoroughly.

One thing has always graved him greatly. He has never been able to tell one swan from in their or to be positive which me the mates and which the 1 males. What he case i pur orgelier constantly he knows that ore is a mile and one its mile but which is which he cannot tell to executive. Any in lar famous tell to executive. Any in lar famous their vyens, experience would decline even to speculate don't the question for one swan is exactly like trailing which after the full pluming content tell that he is she is a value than the others to a swanger than the others to differ the full pluming comes there is no difference. Much these was first came the significance of the stemment of the world be this difficulty so after much to him an examination of the world much is not in it herefore. He painted much is not her to firm a section of the world much is not in it herefore. But the swin see clean bird and has a sing slimit area (i) his uniform white ness so they nelve stopped jacking it the punced i abers into the last one had disappeared. Whether the superintentent He won his first twee on Octo er 26, appeared Another the superinentence are up.

But all lime by crieffid watching has determined on point which miskes him very point of his charges. He says that the indesswin in the spring at the end of his first year takes, into limited a wife and refitting intil death does them part. There are two two two waters are not as all finite in an accept in a casesses It in the assault. Each times to earth I ment keepes riself.

He won his first trace on Octo et 26, 1805, at the 1 mon course, outrooting Commodore Vanderbilt in 30½ s, 25 and 2734 Three years later he made his record of 224, in a context with Rhode 18-12 land and Drace Prince.

During his career Wilkes met and defeated such celebrated troiters as I say Thorne, Dan Rhie, Fear Not. I nev and American Gul but his great cain to lame rests pre-emmently upon his superlative speed producing power. It was not utult so late as 1876 that a stall on troited below 2 lo. Phis feat was accomplished by smuggler in 2 1574, and all the sporting world declared that the stallours inact I speed had been reached After a career during which he defeated Phil Sheedan, Indice Fullerton, Great Fastern, Goldson th Mad and others, Smuggler obtained his record on August

Smuggler obtained his record on August 31, 1870, at Hartford, Ct.
In 1884 Phallas trotted at Chicago in 2 132, and by royal right of performance assumed the things

2.1334, and by royal right of performance assumed the throne. The rise of Phallas from the rables was rapid. With the exception of one minor rate in toolf rule heats, he made us fleet appearance on the turf in 1883, and a year later beat the best horses on the turf, and gained the st d'ion obampionship. On Ju y 14 of that year he met three of the fastest mares on the turf.—Catchilly Chemme 6, and hanny witherspoon. Ostahily won the first test in 1974. It relias won the forthest in 1974. It relias and 1774. He raced so more.

A SEW PERFORMANCES AGAINST TIME are recorded during that season, and the

A PAY PERFORMANCE AGAINST THE FIRST INFORMANCE AGAINST THE FIRST INFORMANC querel. But in the spring their troubles begin oil lest until wither comes again. When a puriod young swans set up house keeping this choice a certain spot on the shore of the like for their nest. This spot remains their, for the rest of their lives. This return to it each spring. With the land less iton goes a certain amount of water surface in the neighborhood and that is the cause of the trouble. They seem to be prefer well agreed among themselves as to how much of the lake surface belongs tread hour.

which produced great glory.

None of the agtempts to lower his mark were tracessful until the fall of 1889, when Axtell succeeded to knocking off 114 econds from the record, trotting is mile at Terre Hante on Oct. 11 in 2.12 flat. All will remember the astonishment with which the snoomneement of this fact was received, when it became generally known the tritting world was convulsed. When should risk hottom be struck was the question everywhere propounded. The usual response was it had already come.

A year liter, or more correctly, Nov. 29, of last year, that great California horse, Stamboul, gave the turk world more food for discussion by mileng the full creatil

for discussion by making the in't circuit in 1.11.

He held his bonors but a short time. Plac wonderful house from Molec, Nelson, was out for the record, and on Oct 22 last, at Cambridge City, had, he turned the mystic circle with ur lifting his head in 2.10½. He is credited with possibility for much greater speed, and strange as it may seem, the same turfmin, who 10 years ago were pronounced in the option that Smuggler's mark of 15½ could not be suppassed, now look for a still greater reduction this season. for discussion by making the full circuit

passed, now low to a to a total to this season Such is the history of stalkon speed pro-Storn a from 18 for v or planton speed progress from 2 10 to 2 10<sup>3</sup><sub>4</sub>.

With better methods, faster tracks and an improving breed, the stallion king of the future may eclipse Mand 8 ' wonderful mark of 2 08<sup>3</sup><sub>4</sub>.
